

Protecting Residents and Supporting Care Teams

Our Commitment

Eastern DataComm is committed to providing technology that safeguards vulnerable residents while enabling staff to respond quickly and efficiently to any situation.

Your Challenges

Ensuring rapid emergency alerts in sensitive environments

Coordinating staff across shifts and buildings

Maintaining compliance with safety standards

Protecting residents while preserving comfort and dignity

Our Solutions for Assisted Living & Long-Term Care

Video Surveillance & Access Control

Monitor facilities and manage entry to secure areas.

Enterprise Networking & Cybersecurity

Protect data integrity and secure digital operations.

Cellular Repeaters

Eliminate communication dead zones in facilities and yard areas.

VoIP & Cloud Communication Platforms

Keep your offices and buildings connected across buildings or multiple sites.

Fencing & Gates

Control vehicle entry, monitor gates, and protect residents, visitors, and staff.

Environmental Sensors

Detect temperature fluctuations, flooding, or hazards impacting the safety of your community.

Why Eastern DataComm?

We design and install systems that fit the unique needs of healthcare environments, ensuring safety without sacrificing quality of care.

Ongoing Support You Can Count On

Our team of expert technicians provide ongoing **support services, monitoring, and maintenance packages** that power reliable performance and lasting peace of mind.

Let's create a safer, better-connected care environment
